The EVIL INTERNET MINUTE

As the internet and its community continues to grow at breakneck speed, it has been useful to make the vast numbers associated with this growth more accessible by framing them in the context of an "Internet Minute." As this same growth pattern applies to cybercrime, we have framed malicious activity in the same way. Based on research from industry sources as well as RiskIQ research, here's what goes on in an "Evil Internet Minute."

CYBERCRIME VICTIMS

📅 **1.5 MILLION**/day
⏱ **1,080**/minute[1]

RANSOMWARE

⏱ **1,214** ransomware attacks/minute

COST OF CYBERCRIME

📅 **£345 BILLION** in 2016[2]
⏱ **£656,393**/minute

💰 **£109,942** spent by businesses defending against external cyber threats

📅 Globally, the cost of cybercrime on large businesses range from **£1.46 MILLION** to **£3.14 MILLION**/year[5]

⏱ Ranging from **£2.78**/minute to **£5.97**/minute
